AI VISIBILITY REPORT · OCTOBER 2026

When Australians ask AI for a compensation lawyer, who gets named?

LHD Lawyers against the competition in 8 cities, across 5 AI assistants and 280 real answers. We start with Sydney.

PREPARED BY UPRISE DIGITAL

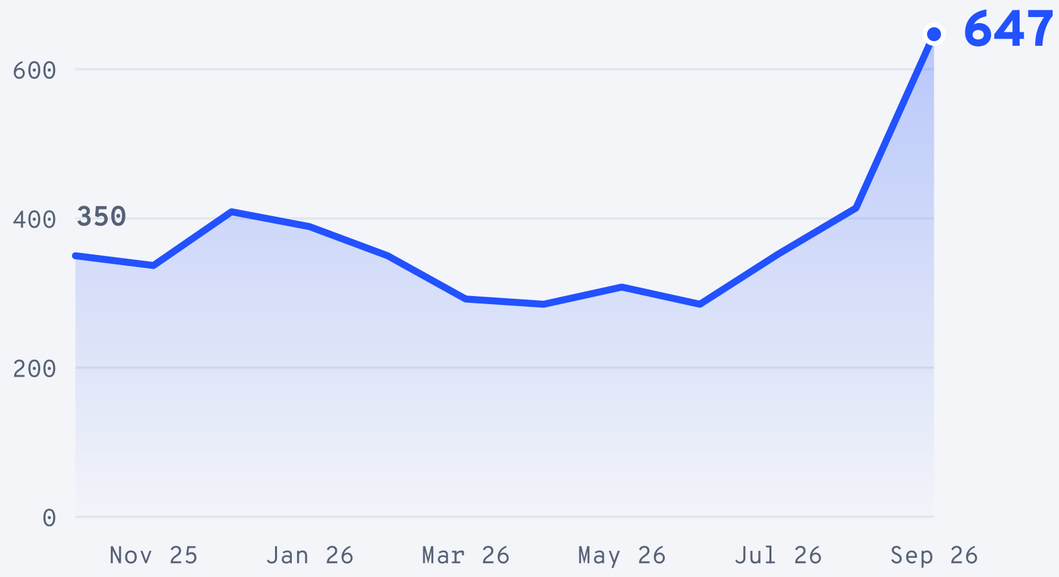

99 of 280 answers name LHD

WHY THIS MATTERS NOW

More Australians are asking AI which lawyer to call

+85% estimated monthly AI-assistant searches for **“personal injury lawyer”** in Australia, Oct 2025 to Sep 2026

AI gives a shortlist, not ten blue links. The answers we collected named a median of 6 firms. A firm that isn't on the list doesn't get the call.

Each assistant builds its list from sources it trusts: rankings guides, legal directories, Google Maps and firm websites.

The shortlist changes by city. LHD is the first name in Hobart and barely appears in Brisbane, so each market needs its own plan.

HOW WE MEASURED IT

280 real AI answers, collected on 6 October 2026

8 cities where LHD has an office × **7** questions a real client would ask × **5** AI assistants = **280** answers read and scored

The 7 questions (Sydney wording)

1. Who are the best personal injury lawyers in Sydney?
2. Who are the best workers compensation lawyers in Sydney?
3. I was hurt in a car accident in Sydney. Which compensation lawyers should I contact?
4. Which no win no fee compensation lawyers in Sydney would you recommend?
5. Who are the top medical negligence lawyers in Sydney?
6. Which lawyers in Sydney are best for TPD and superannuation insurance claims?
7. I slipped and fell in a shopping centre in Sydney. Which public liability lawyers are best?

The 5 assistants

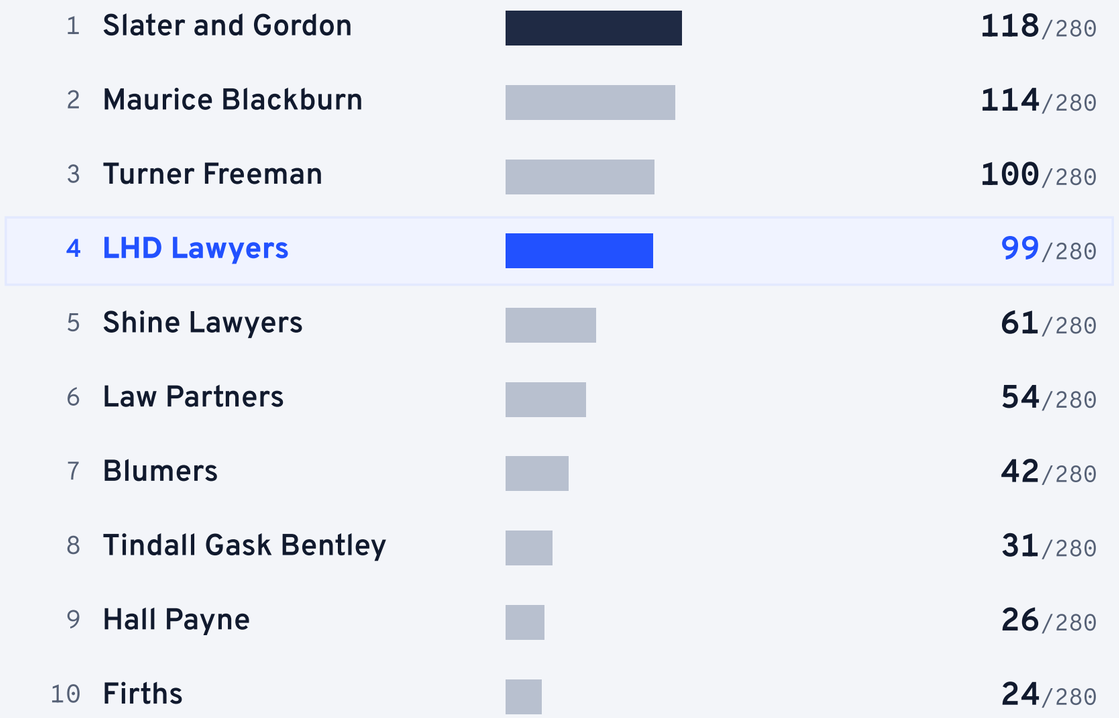

ChatGPT	with web search, from Australia
Google AI Mode	searched from each city
Gemini	located in each city
Perplexity	Sonar, web search on
Claude	Sonnet 4.6, web search on

We also ran the same 7 searches on Google from each city (56 searches) to record the map pack and top 20 results.

NATIONAL STANDINGS

Across all 8 cities, LHD is the 4th most-named firm

Answers naming each firm, out of 280 ·261 firms named in total

35%

of answers name LHD (99 of 280). Slater and Gordon leads with 118.

27%

without Hobart. 33 of LHD's 99 mentions come from Hobart alone, so the national figure flatters the other cities.

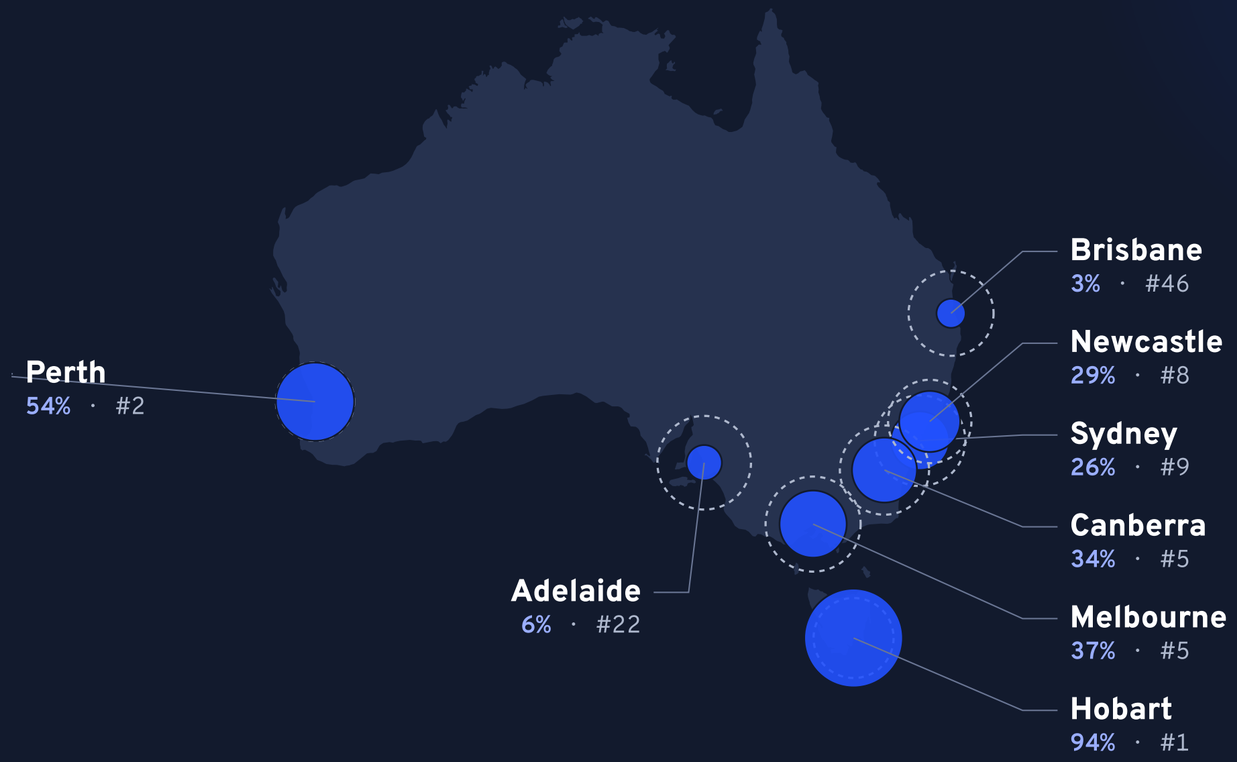

79

answers cite lhd.com.au as a source, more than any other firm's website. AI reads LHD's site; it doesn't always recommend LHD.

THE PLAN

How LHD gets on every shortlist

Five workstreams, each tied to a gap in the data. Sydney comes first, then Brisbane and Adelaide, where LHD is almost invisible.

THE PLAN

Five workstreams, each answering a gap in the data

	WORKSTREAM	WHAT THE DATA SHOWS	WHAT WE WILL DO
01	**Get ranked where AI looks**	Doyle's Guide, LawConnect, Lawzana and Best Lawyers are cited in 26 to 39 answers each. LHD is Third Tier in Doyle's NSW work injury ranking.	Doyle's and Best Lawyers submissions, complete directory profiles, placements in “best lawyers in [city]” articles.
02	**Win Google Maps in every office city**	LHD is in 1 of 7 Sydney map packs and none in Brisbane or Adelaide. Canberra has 4 reviews and Newcastle 3.	A review program per office, full services and categories, photos and Q&A, and Brisbane and Adelaide profiles fixed.
03	**Make city pages AI can quote**	lhd.com.au is cited in 79 answers, yet the Sydney medical negligence and Melbourne TAC pages get 0 of 5. Brisbane and Adelaide have no practice pages.	Rewrite the existing city × practice pages and build them for Brisbane and Adelaide, naming the state scheme, the lawyers, results and FAQs.
04	**Fix how AI describes LHD**	Perplexity called LHD “Lawyers, Doctors & Health”. ChatGPT quotes $220m, which the Sydney page still says. Taylor & Scott is treated as a rival.	One consistent set of facts across the site, schema and profiles, and Taylor & Scott folded into the LHD entity.
05	**Measure every month**	AI answers change week to week. Only a fixed panel shows real movement.	Re-run the same 280 questions and 56 Google searches monthly, and report each city’s rank and gap.

WORKSTREAM 01

AI copies its shortlist from rankings guides and directories

Third-party sources cited in the 280 answers (answers citing each)

What we will do

- ✓ Prepare Doyle's Guide submissions for NSW, VIC, QLD, WA and SA, starting with NSW work injury and motor vehicle (LHD is Third Tier in NSW work injury).
- ✓ Complete and align LHD's LawConnect, Lawzana and Best Lawyers profiles for every office city.
- ✓ Pitch LHD into the “best personal injury lawyers in [city]” articles that Claude and ChatGPT cite.

Doyle's rankings come from peer votes, so the work is submissions and referees, not payment.

Brisbane	0/7	not in map packs
Perth	5/7	372
Adelaide	0/7	not in map packs
Canberra	0/7	4
Newcastle	3/7	3
Hobart	7/7	127

What we will do

- ✓ Run a review program for every office, starting with Canberra (4 reviews) and Newcastle (3).
- ✓ List every practice area as a service, with photos, Q&A and weekly posts on each profile.
- ✓ Find out why Brisbane and Adelaide never show in the map pack, and fix the profiles.
- ✓ Use Taylor & Scott's Sydney profile (4.9 from 361 reviews) in line with the merger plan.

Google AI Mode named Garling & Co in 6 of 7 Sydney answers. Garling appears in 5 of 7 Sydney map packs.

What we will do

- ✓ Rewrite the pages that already exist but get 0 of 5: Sydney medical negligence, Melbourne TAC and Melbourne medical negligence.
- ✓ Build practice pages for Brisbane and Adelaide, which have none today.
- ✓ Name the state scheme, the local lawyers, real outcomes and the questions clients ask, in plain answers AI can quote.
- ✓ Add LegalService and office schema with consistent names, addresses and phone numbers.

AI gets some facts about LHD wrong

PERPLEXITY · HOBART

“**Lawyers, Doctors & Health (LDH)** — advertises Hobart public-liability and slip-and-fall claims…”

It cites lhd.com.au but invents the name.

CHATGPT · PERTH

“They advertise 35+ years' experience and **$220m+ compensation settled** overall.”

LHD's Sydney office page still says “Over $220M” in its description. The homepage says $260 million.

CLAUDE, PERPLEXITY, AI MODE · SYDNEY

“**Taylor & Scott Lawyers**” recommended as a separate firm in 6 Sydney answers.

LHD has acquired Taylor & Scott. AI hasn't caught up.

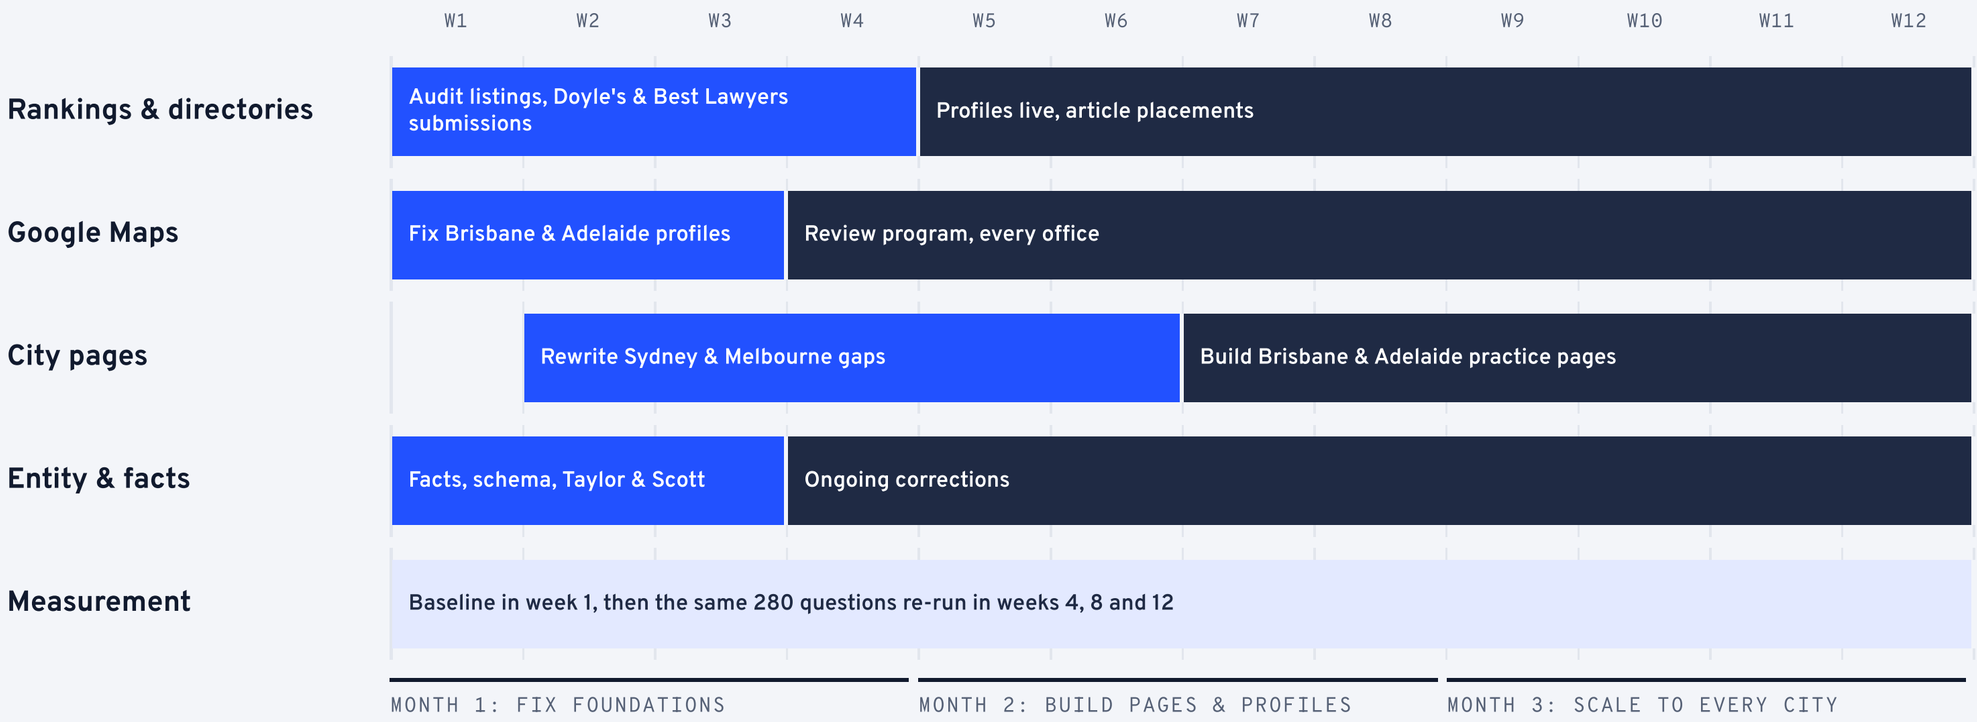

What we will do

- ✓ Publish one source of truth: firm name, figures, offices and specialists, repeated the same way on every page and profile.
- ✓ Connect Taylor & Scott to LHD: redirects, profile updates and an announcement page that AI can find.
- ✓ Add Organization and LegalService schema with sameAs links to LinkedIn, LawConnect, Doyle's Guide and Google profiles.
- ✓ Check the same answers each month and correct anything AI still gets wrong.

Hobart	94% · #1	Hold #1	Hold #1

Targets are measured on the same 280-question panel each month, so every movement is like for like.

NEXT STEPS

Start with Sydney. Measure every month.

1

Agree the targets and the order of cities after Sydney.

2

Share access to the Google Business Profiles, the website and the directory logins.

3

First re-measure in early November 2026, on the same 280 questions and 56 searches.

APPENDIX

Method and definitions

How answers were collected

- 7 questions × 8 cities, asked on 6 October 2026 (AEDT) through DataForSEO's AI Optimization and SERP APIs.
- ChatGPT ran with web search from Australia. Gemini and Google AI Mode were located in each city. Perplexity (Sonar) and Claude (Sonnet 4.6) ran with web search, Australian results.
- Each question was asked once per assistant. AI answers vary between runs, so treat single-cell results as indicative and city totals as the signal.
- Google results: the same 7 searches in keyword form from each city, desktop, top 20 results plus map pack and AI Overview.

How answers were scored

- Every law firm named in an answer was extracted, including map cards shown with the answer. Directories, regulators and insurers were excluded.
- Name variants were merged (for example “Law Partners Injury Lawyers” into Law Partners). A firm counts once per answer.
- Each LHD mention was checked against the answer text. “LHD” meaning a NSW Local Health District was not counted.
- Trend data: DataForSEO LLM Mentions database, Google AI answers in Australia, Aug 2025 to Sep 2026.
